

Light Line Medical, Inc. Delivers Breakthrough PhotoDisinfection Technology™ Presentation at The New York Venture Summit

Light Line Medical, Inc. recently became one of 200 companies worldwide to earn a coveted presentation slot at the 23rd annual **New York Venture Summit**. The Summit accepts presenters who meet strict criteria based on industry, stage, business model, size of the target audience, and milestones achieved to date.

NEW YORK VENTURE SUMMIT
September 6th & 7th, 2023
Javits Center, New York City

WHERE INNOVATION MEETS CAPITAL™

**LIGHT LINE
MEDICAL**
Bringing LIGHT to Catheter Disinfection

Vicki Farrar, Light Line CEO, is very much looking forward to the event, stating, “We are proud and honored to be part of such a prestigious event. We value the opportunity to share our patented **PhotoDisinfection System™**, designed to solve the horror of catheter infections worldwide, with potential investors.”

For Light Line Medical, it is a rare opportunity to connect with investors, share our vision, and secure the funding to continue our important work in improving patients’ lives by reducing the chance of infection during peritoneal dialysis.
